DELTA VARIANT - Updated guidance on facemasks

Dear Students, Parents and Carers,

The Delta variant is spreading quickly and has contributed to numbers of people with COVID-19 increasing significantly in the last few weeks.

Due to this, in partnership with local and national leads, the Director of Public Health for Manchester is now recommending that all secondary schools and colleges should **return to the use of face coverings for students in classrooms and communal areas.**

As a consequence could students please comply from tomorrow 10/6. This includes the use of facemasks in the exam hall.

We are currently reviewing other activities, including football fixtures and will update you in due course.

Thank you for your continued support.

Best wishes,

Jane
